

# Eden Park Primary School Curriculum Implementation

## What we do...

EYFS follow their own curriculum which links seamlessly into KS1. KS1-2 deliver the National Curriculum through long and short learning enquiries

Children are 'hooked' into their learning through an engaging and inspirational hook

We maintain the integrity of individual subjects

Progression has been carefully planned

## Strategies

Knowledge Organisers are shared to include tier 2 & tier 3 vocabulary

The 6E's make up the learning cycle. Children engage, explore, explain, examine, elaborate & evaluate their learning

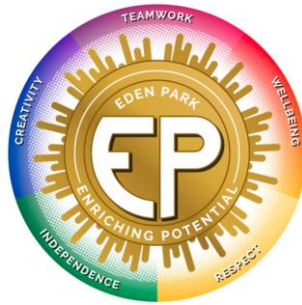

An awareness of 'end-points' which provides full accountability

Quizzing at the beginning and end of an enquiry to determine depth of knowledge and progress made

Learning values are woven seamlessly into our enquiries

A Graduate scheme is available for children who wish to dig a little deeper into a subject

Assemblies and rewards are closely linked to our curriculum, providing motivation and enrichment

## How we do it...

Quality time spent learning about a single subject i.e. history

Our 'Voices', which are broken down into phases are progressive and clearly show the disciplinary knowledge being taught

We deliver bespoke, same day interventions

Teachers work hard to make learning purposeful, engaging and relevant. We love trips and always welcome visitors

We make links to British values throughout our learning

We are proud of our learning outcomes and always welcome parents and carers to join us to celebrate

Substantive knowledge is clear and should be updated to respond to local and global issues

Quality texts and resources are always used

Our Teaching and Learning policy provides further information on implementation of the curriculum.

A graduated response to SEN that follows Torbay's guidance, including individual provision where necessary to meet the child's needs.
