

PARENT SURVEY COMMENTS 2021-2

The following comments were submitted by parents as part of the parent survey, conducted in October 2021. The comments have been broken into sections for ease.

Praise for Happiness

My child is very happy at Eden Park.

My child has attended Eden Park for the last four years and is extremely happy there.

My children love coming to school!

This school is a credit, and I would recommend this school to anyone.

Praise for Values Education

I feel that (the children) are given fantastic opportunities to learn and further their development.

The Head Teacher is very approachable and ensures that the school is a brilliant environment by encouraging the school's values.

As parents we are really pleased that our child has a solid understanding of core values and is praised for being a good person, as well as preforming academically. He feels happy and comfortable, and as a result is excelling.

Friendly welcoming school which enables children to grow and learn in a positive atmosphere.

Praise for progress

My son is very happy and doing extremely well in his education.

My child is always happy and excited to come to school and has had a wonderful start to this year.

My children are proud to be members of the school community and despite a tricky 2 years with Covid, we are pleased with the progress that's been made.

The “real test” of life at Eden Park is how it prepares children for “real life”. Seeing my eldest daughter transition to Secondary School has shown me what a fantastic primary education she has received and how it has prepared her successfully for the next stage of her academic career. From the Nursery building blocks, through to Year 6 during a global pandemic, Eden Park has been full of wonderful experiences and opportunities.

Praise for the Curriculum

X has come on in leaps and bounds since starting school and loves it; he especially loves phonics, numbers and PE.

Great outcomes giving parents an opportunity to see children's learning in creative ways.

Praise for staff

(Teachers) always have high expectations and support my child to reach his potential.

He has loved all of his teachers, and this year is no different.

The staff have always been very supportive and attentive to my child, consistently meeting their needs.

Thanks to all Eden Park school staff who are there looking after, supporting and teaching my children. You are all 5 stars!

Staff are supportive and responsive, ensuring the child's need are put first.

I feel incredibly lucky to have this school, all the teachers have been wonderful right from Tadpoles through to Year 6.

This school is amazing, they do wonders with my 3 children; they deal with my poorly child really well.

X has a lovely way of ensuring the children are learning to their best ability whilst making the learning fun and interesting. It was great to come into school again and look through her work.

The school staff particularly went above and beyond with remote learning.
